

Key Attractions from Lake Imaging Access Area

For Lake Imaging Access Area on Staton Road, see [Directions](#).
All directions are one way.

The Lake Imaging Access Area is a favorite of equestrians because it can accommodate trailers and the trails from there are very suitable for horses.

Three Falls Loop

Lake Imaging

1.3-acre Lake Imaging is a charming setting with a picnic shelter and fishing dock.

- Take Lake Imaging Road for 0.2 miles.

Grassy Creek Falls

Grassy Creek is a cascade on the Grassy Creek downstream from Wintergreen Falls.

- Continue on Lake Imaging Road for 1.3 miles.
- Turn right on Grassy Creek Falls Trail for 0.2 miles past horse tie-out down the foot path to the waterfall.
- Total distance to Grassy Creek Falls is 1.5 miles from Lake Imaging.
- Alternate return: Return up the foot path and turn left on Hilltop Trail 1.0 miles and left on Lake Imaging Road 1.3 miles for a return of 2.5 miles from the falls.

Covered Bridge

- After viewing the Grassy Creek Falls, backtrack 0.2 miles on the foot path and continue right on Lake Imaging Road 0.1 miles to Buck Forest Road at the Grassy Creek Bridge.
- Continue across the bridge to the right on Buck Forest Road for 0.6 miles to the Covered Bridge just upstream from High Falls.
- Total distance to the Covered Bridge is 0.9 miles from Grassy Creek Falls.

High Falls

High Falls slides 120 feet down an inclined plane of granite. The falls and the Covered Bridge can be viewed from the picnic shelter.

- Cross the bridge, turn right on Covered Bridge Trail for 0.2 miles and then turn right on High Falls Trail for 0.2 miles by taking the left fork to the picnic shelter where there a horse tie-out.
- Total distance to High Falls is 0.4 miles from the Covered Bridge.

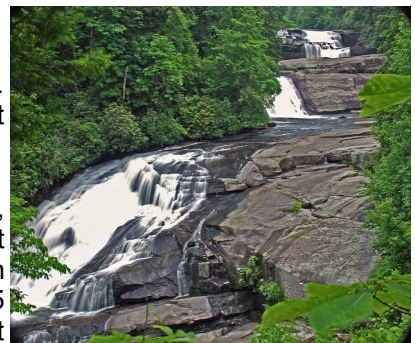

ACCESS TO THE BASE OF HIGH FALLS IS FROM RIVER BEND TRAIL. ONCE AT THE BASE, DO NOT ATTEMPT TO CROSS THE RIVER OR CLIMB UP THE ROCKS.

Triple Falls

This 120-foot waterfall features three cascades. There are steps just up hill from the viewing area that will take you closer to the falls.

- When you leave the High Falls viewing area, backtrack 0.1 miles to the High Falls Trail that turns left down the hill for 0.1 miles to the path below the shelter. Follow High Falls Trail 0.5 miles to the junction of the Triple Falls Trail at the top of the hill. Bear right 0.1 miles to the Triple Falls viewing area where there is a picnic shelter and horse tie-out.
- Total distance to Triple Falls is 0.8 miles from High Falls.
- Total distance from the Lake Imaging Access Area to Triple Falls is 3.8 miles.

**NO WADING, SWIMMING OR ROCK CLIMBING
IS ALLOWED AT TRIPLE FALLS!**

- An alternate back to Lake Imaging Access Area is to take Triple Falls Trail 0.8 miles and left on Buck Forest Road 0.9 miles and left on Lake Imaging Road 1.6 miles for a total of 3.3 miles making a round trip of 7.1 miles.

Hooker Falls

The Little River drops off a 12 foot ledge at Hooker Falls before flowing into Cascade Lake further downstream. Hooker Falls is the fourth waterfall on Little River starting with Bridal Veil Falls, then High Falls, Triple Falls and Hooker Falls.

- From the Lake Imaging Access Area, Cross Staton Road and take Holly Road 1.4 miles.
- Turn right on Hooker Falls Road 0.4 to the horse tie-out.
- Total distance from Lake Imaging Access Area to Hooker Falls is 1.8 miles.
